Dear Lou:

On behalf of the Link Elementary School PTA, I am writing to thank you for bringing your program, "When I was a Kid", to our school last Friday.

Everyone thoroughly enjoyed your performance and I have heard nothing but positive feedback from both the staff and the students. The teachers in attendance have made a special point of expressing their pleasure at the entertainment value of the show and even more so at the importance of your message about making good choices in life. It is clear from the rare and captivating style of your performance that you enjoy what you do.

Many of the children have already asked if you would be willing to come back next year. They were clearly touched by your personal experiences as incorporated into a live show. It was evident from classroom discussions that took place later that day, that the students connected with the choices you made growing up. They were able to apply your stories to their own lives with an understanding of how important it is to "make a good choice."

Again, your program was terrific. You brought a bit of real life onto the stage in a manner that was non-threatening, fun, and educational.

I look forward to seeing you at Link at some point in the future.

Sincerely,

Liz Berg
